 The Forest
 Drawing - 30 x 40 cm - 2019
 Concept: Forest must be preserved to maintain the balance of nature. Today, there is only a small amount of forest left, many trees have been cut down, causing damage to the ecosystem, and leading to disease. The memory of the forest inspired me to express it in a work of art in the form of a drawing in oil. I hope to prove that I am founded on environmental issues that are crucial for today.

The Forest
Drawing : 30 x 40 cm, 2019

Concept: Forests must be preserved to maintain the balance of nature. Today, there is only a small amount of forest left, many trees have been cut down, causing damage to the ecosystem, and leading to disaster. The memory of the forest inspired me to express it in a work of art in the form of a drawing on old magazine paper that has been discarded to appreciate things that are considered trash.
